

Areas of Concern

Highlands County, Florida

DRAFT: October 28, 2009

Areas of Concern were developed by summarizing the Wildland Fire Susceptibility Index for each subdivision boundary. Subdivisions selected for this analysis had more than five parcels with residential door codes or had mobile home or multi-family housing residences.

Areas of Concern Ranking

- Very Low
- Low
- Moderate
- High
- Very High
- Water

Data Sources:

WFSI derived using 2005 DOF surface fuel models and data from the Southern Wildfire Risk Assessment (SWRA). Roads and railways data acquired from the Florida Department of Transportation. Subdivision boundaries acquired from Highlands County Planning Department.
